These records are from file cards of the DeKalb County Health Department. Illegitimate births are not given on the file cards. Adoptions are given; but usually the mother's name is the same as the father's family name. This rule does not always prove true ---sometimes it is not an adoption.

Sometimes there was not a marriage of the parents; but names are given as if there were.

Special acknowledgement is given to Diana Best, of the Health Department. Without her co-operation these records could not have been compiled. Thank you, Diana.
